Let's Build Something Meaningful

DR. BERNARDO A MERIZALDE **VICE-PRESIDENT**

Dear colleagues, friends, brothers and sisters, in homeopathy, we are starting a new era in homeopathic medicine, one in which we are “coming out of closet,” figuratively speaking, proud and determined with what we have to offer the world, the most benign, effective and of low cost! We have the evidence, a coherent and repeatedly proven system of medicine! Join us in taking over the digital universe to spread the word throughout the globe. We can only do this with your participation!

DR. BERNHARD ZAUNER **GENERAL SECRETARY**

Welcome to the first issue of the LMHI newsletter! As the General Secretary of LMHI, I'm proud to highlight the widespread use and popularity of homeopathy across the world. This safe, gentle and effective form of medicine is utilized by medical professionals to alleviate symptoms and treat diseases in both humans and animals, as well as in agriculture. With its ecological compatibility, lack of animal testing and resource-saving methods, homeopathy is making a significant impact in the world of medicine. We hope this newsletter provides valuable insights and updates for our members.

Message from our

P R E S I D E N T

DR. ALTUNAY AĞAOĞLU

SET THE BALL ROLLING IN 2023

The next, 76th, LMHI world congress will be in September 2023, in the beautiful city of Bogotá, Colombia. We are aiming to cover research, clinical practicum, education and integration of homeopathy into mainstream health care systems. Most importantly, also, there will be evaluation of WHO MATC strategies 2014-2023. I am looking forward to seeing all there.

Dear Friends and Colleagues,

I wish all a healthy, prosperous and a peaceful year ahead. We all contributed to a vestigial congress in Istanbul. As your elect president, I'd like to greet everyone and assure you that the Executive Council is active and working. One of our targeted goals is to complete the digitalisation of the LMHI functions. Among its completion, the realisation of online transactions, digital certifications, various video shares and the presence of Homeopathy in social media will be much easy, more effective and less time consuming for all involved. With this objective in mind, we have organised an e-newsletter so all the activities of the LMHI and its members may be shared for all to read and be up to date with any news.

Prof Dr. Ashley Ross will lead webinar series for our members free of charge. I think we will all enjoy and learn from them a great deal.

We are looking to reach out to all of the International Homeopathy Associations and show interest that we'd like to work together for the greater good of Homeopathy and the people we serve. We profoundly value our members and the NVP's. We realize the affluence of diversity and that every voice counts. So, for the greater success of LMHI I call out to our greater membership and NVP's to voice their interests and take active roles in working groups. What do you say to we all work together as a family for our future?

4 Things to look forward to this year :

- 1.-Digitalisation of LMHI
- 2.-Webinar series
- 3.-Collaboration in Homeopathy
- 4.-LMHI museum

WHAT IS SYSTEMIC AGROHOMEOPATHY? LET'S CLARIFY!

Homeopathy can treat effectively humans and animals but it can be applied successfully also to plants.

In this article Francesco di Lorenzo, an agronomist and agrohomeopath, explain how in order to use the Homeopathic method in agriculture, it should be adapted to the plant system which is completely different in terms of biochemistry, chemistry and pathological pathways from the animal world.

The treatments are given not only to the plant in itself but to the whole agroecosystem (holon) so that it stimulates the endogenous defenses to make it more resistant to biotic and abiotic stress.

MY PERSONAL EXPERIENCE WITH HOMEOPATHY

Let us introduce you to Dr. Héctor Cruz-Tabuena, Neurologist and Homeopath from Spain, who in this section will tell us how he came to know Homeopathy, what was his medical training as a neurologist and as a Homeopath and what homeopathy has offered him in his life.

CLINICAL TRIAL OF LEISHMANIASIS, AN EPIDEMIC DISEASE TREATED WITH HOMEOPATHY

A clinical trial was conducted in patients with cutaneous Leishmaniasis.

Leishmaniasis is an Endemic parasitic disease affecting 88 countries and more than 12 million people in the world. Homeopathic remedies were orally administered for three months to 20 patients who were diagnosed with cutaneous leishmaniasis. Remedies were prescribed based on the individual symptoms. Lesions were significantly reduced in 65% of the patients.

INVITATION TO THE LMHI WORLD CONGRESS OF HOMEOPATHY

LMHI 2023, under the slogan Education for the professionalization and qualification of homeopathic medicine, arises from the need to link the knowledge of the Academy with the Colombian hospital service and show the world the advances of both the country and Homeopathy. For the first time in history, the LMHI Congress will be held in Colombia, where you can discover its cultural and gastronomic richness and enjoy this enriching experience in every way.

The topic areas that will be discussed are:

- Clinical Research in Homeopathy
- New methods and approaches in Homeopathy.
- Pre-clinical research in Homeopathy
- Homeopathy in Clinical Practice
- Historical development of Homeopathy
- Integration of Homeopathy in: Pharmacy, Veterinary, Agro-homeopathy, Health systems.
- Education of Homeopathy in universities
- Advances in primary health care policies in MATCA
- Evaluation of WHO MATC Strategies 2014-2023
