Let's Build Something Meaningful

MESSAGE FROM OUR GEN SECRETARY

I am pleased to announce the next Congress in Bogota, Colombia, which will take place from 25-28 October. Before the Congress, there are the meetings of the different working groups and the International Council, which will be held on 24 October. The International Council is the highest institution of the association and is composed of the elected NVP's/NCP's.

The annually face to face meeting before the LMHI congresses is an important session at which many decisions are made and information is exchanged. Therefore, it is important that as many NVPs/NCPs as possible participate in it. The National Vice-Presidents and National Contact Persons are the permanent link between the International Council and the national homeopathic organizations. They represent their country in the International Council meetings and officially in LMHI.

This year, the Board decided to hold a virtual meeting, which took place on April 20, 2023. It was a first attempt and 33 colleagues participated, members of the Board and NVPs/NCPs.

DR. BERNHARD ZAUNER

There was an intensive exchange of ideas, news, information, queries, suggestions on all points, which I consider as very important. I look forward to abundant participation and discussion at the International Council meeting at the Congress in Bogota!

MEET OUR SECRETARY OF NEWSLETTER

I am Dr. Andrea Flores Sanchez, homeopathic physician and the secretary of Newsletters of the Liga Medicorum Homoeopathica Internationalis. The members of our working group and I work coordinating, writing and editing the publications of the LMHI.

We edit three publications:
The LMHI Newsletter, which is for all the public.
It features on Homeopathy-related events around the world, including upcoming LMHI congresses, interviews with homeopaths about their training and practice and with individuals who use homeopathy, as well as the annual reports written by national vice presidents of the LMHI.

Secondly, we have our academic journal, shared only with members, called The Homoeopathic Physician. It includes historical, scientific and clinical research articles and a section called the Quiz Corner, dedicated to student colleagues.

Recently, we have created the e- newsletter, where we share short reviews of articles and news of interest to our homeopathic community.

Our aim is to ensure that all LMHI members around the world are well-informed about the work done by the LMHI and can benefit from our publications.

We invite the homeopaths to become part of the LMHI, read our publications, and collaborate with our working groups.

FOR NVPs AND NCPs

The next International Council Meeting will be held on **October 24, 2023** where very important topics such as attacks on homeopathy, future strategies, projects, exchange program etc will be discussed.

The annual report, must be sent one month before the meeting to the General Secretary, and to the Secretary of Newsletters, as well as to the General Secretariat of the LMHI.

It is very important for our entire homeopathic community to know about the activity and development of homeopathy in your countries so that together we can work on strengthening homeopathy worldwide.

It is thanks to you that homeopathy is alive and we recognize the invaluable work that you do in practicing and teaching homeopathy and above all improving the health of the patients.

FORMAT OF ANNUAL REPORT

CSO Dialogue between TCIH Coalition and WHO Director-General- ***The need for Traditional, Complementary, and Integrative Health***

This Global meeting was coordinated by the TCIH Coalition, representing over 300 civil society organizations (CSO). LMHI is a part of this Coalition. In this meeting we engaged with Dr Tedros, the Director-General of the World Health Organization (WHO) and senior WHO officials, on the priorities and challenges facing traditional, complementary, and integrative health (TCIH) at global, regional, and country levels.

Dr Raj K Manchanda, Secretary for Information and Communication, LMHI actively participated and made following statement at this global forum.

I Dr RAJ K MANCHANDA representing LMHI, a civil society from Germany, founded in 1925.

My submission focuses on Traditional Complementary and Integrative health known as TCIH in brief, as a valuable insufficiently tapped resource that can contribute significantly to Universal Health Coverage.

The virtues of TCIH as an important resource in healthcare needs to be mapped. Their inclusion in national health policies is so far mixed, only few countries actively integrate and patronage these practices.

We therefore propose:

a) To encourage a positive framework in all countries that enshrines the role of TCIH in the achievement of Universal Health Coverage.

b) To utilise the insufficiently tapped TCIH resource of practitioners, practices, and products synergistically, in providing quality healthcare, promoting healthy aging and well-being.

INVITATION FOR LMHI CONGRESS 2024

Dear professionals, patients, users and friends of homeopathy:

Commemorating the centenary of the proposal for the creation of the LMHI at the International Congress of Homeopathy held in 1924 in Barcelona (Spain), the National Assembly of Homeopathy (ANH) has made the commitment to organize the LMHI congress for 2024.

The city chosen as the venue, Seville, has among other merits, being the birthplace of Dr. Prudencio Querol, pioneer of Spanish Homeopathy with its successful homeopathic treatments for chronically ill patients carried out in the hospital San Sebastian de Badajoz during the years 1832-1838 and during the cholera epidemic suffered in the city of Extremadura.

Under the slogan "United to continue advancing", we are organizing a congress that covers the various aspects of Homeopathy: research and science, regulation and rights, teaching and professionalization, clinical, theoretical bases and historical development, professional development: doctors, pharmacists, veterinarians, dentists. Other aspects related to homeopathy that will also be addressed at the congress will be agrohomeopathy and its contribution to public health by improving plant and animal production in achieving healthier food, reducing global pollution and improving global health within the ONE HEALTH concept.

Throughout the congress there will be an inaugural conference, round tables, papers, communications, posters, workshops, a stand of registered authors' books and a closing conference. Also, parallel activities will be developed by patient associations that will have an important space for participation. In addition to all this, the general public will be able to enjoy the Informative Exhibition on Homeopathy in the World. The development of the congress in the facilities of the Barceló-Discovery hotel in Isla Magica, and its surroundings will be the meeting point, where we will be able to enjoy four days of professional, cultural, gastronomic and recreational-festive coexistence. From here, we invite all interested people to participate in this congress that will mark a before and after in the proper perception of Homeopathy in Spain as a showcase of World Homeopathy. We are waiting for you in Seville, united to continue advancing.

Fraternal embrace,

Jose Luis Jiménez Sales.
NVP of the LMHI for Spain.
General Coordinator of the
Organizing Committee of the
77th LMHI Congress
(October 2-5, 2024)

INVITATION TO THE LMHI WORLD CONGRESS OF HOMEOPATHY 2023

LMHI 2023, under the slogan Education for the professionalization and qualification of homeopathic medicine, arises from the need to link the knowledge of the Academy with the Colombian hospital service and show the world the advances of both the country and Homeopathy. For the first time in history, the LMHI Congress will be held in Colombia, where you can discover its cultural and gastronomic richness and enjoy this enriching experience in every way.

The topic areas that will be discussed are:

- Clinical Research in Homeopathy
- New methods and approaches in Homeopathy.
- Pre-clinical research in Homeopathy
- Homeopathy in Clinical Practice
- Historical development of Homeopathy
- Integration of Homeopathy in: Pharmacy, Veterinary, Agro-homeopathy, Health systems.
- Education of Homeopathy in universities
- Advances in primary health care policies in MATCA
- Evaluation of WHO MATC Strategies 2014-2023
